alpro

NARROW STILE
CODELOCK

The narrow stile mechanical Codelock is suitable for aluminium doors. It is an affordable alternative to electronic keypads, electrical strikes, magnetic locks and other systems used on aluminium framed doors.

The narrow stile lock is medium duty and ideal for new or retrofit applications designed to be retrofitted to Alpro or similar ANSI round cylinder mortice deadlatches. The locks have a variety of access control functions, allowing the user flexibility on how to manage entry - by key, code or code free entry.

Features

Full size lever handles with return to door
Ball shape knob available
Stubby lever handle available
Code Free access options
Suitable for internal and external aluminium doors
Two models available
PVD low maintenance finish
Stainless steel finish

ADDITIONAL FEATURES

Faceplate Options

Sold separately:
Flat - 52FP4511
Round - 52FP4512

Deadlatch Options

Deadlatch (round screw in cylinder type only).
5245101 (RH) - 29mm (1 1/8")
5245102 (LH) - 29mm (1 1/8")
5245103 (RH) - 25mm (1")
5245104 (LH) - 25mm (1")

Code Change Method

Requires removal of the lock from the door. The code can be changed by repositioning the tumblers in the code chamber. Locks are supplied with a random code commencing with the 'C' clear button.

Code Free Access

The ALP0465 and ALP0475 models provide a Code Free Access mode. These models feature a black dot on the 'Y' button. When the 'Y' button is pressed along with a correct code input, the lever will retract the latch freely until disabled.
