## Security Vortex 2400 'Z&L' Bracket for AL2400-LP to suit inward opening doors

This bracket is designed specifically for the Vortex 2400 surface door magnet and allows *infinite adjustment of the armature, backwards, forwards, sideways, angled and up and down*. This is to ensure the pin on the armature locates accurately in the receiving hole on the lock and that the lock and armature align completely flush, thereby making installation quick, simple and accurate.

### Dimensions:

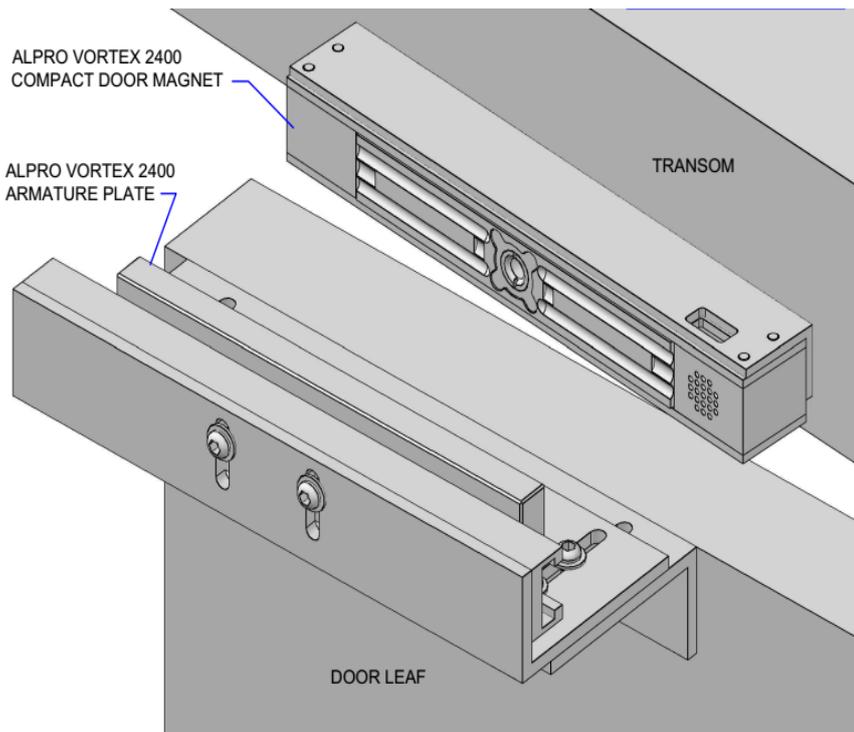

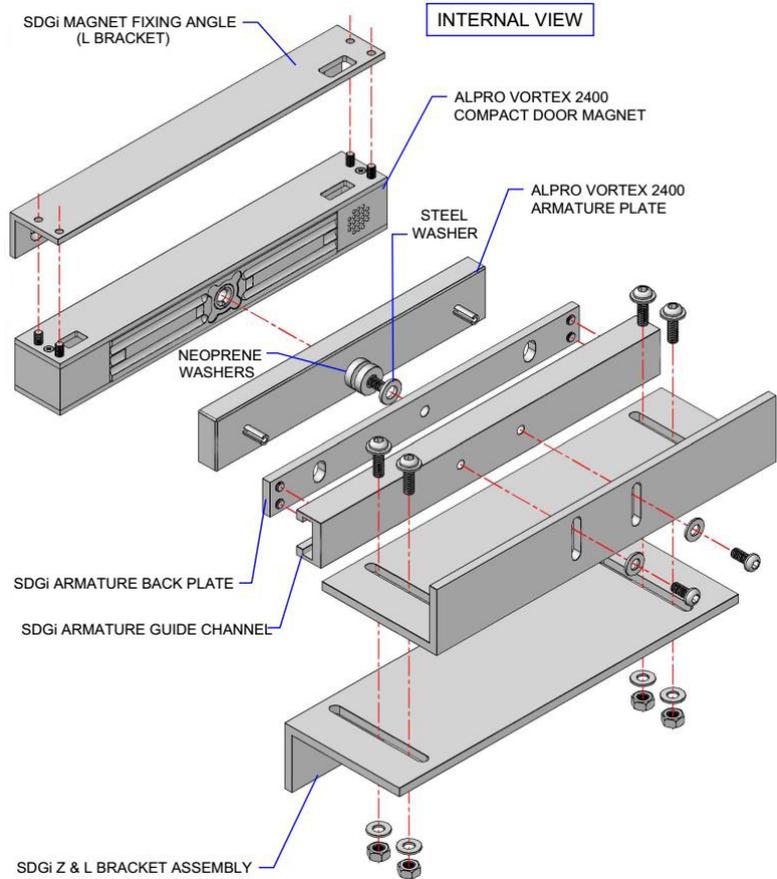

- Z plates – 225mm W x 76mm D
- L bracket is 218mm W x 25.5mm H
- Max extension from face of armature to face of door – 85mm
- Adjustment left and right 12.5mm
- Adjustment up and down – 10mm
