Door Loops

Door Loops offer a protective means of running wires from the frame to door installed with electrical devices, such as electric locks and exit devices.

These door loops prevent foreign objects from damaging the wires and also produce aesthetically pleasing appearance.

All models have a metal loop for better protection, and all have an internal diameter of 7mm which is sufficient to handle the most common cables used in door locking/control.

Features
Cable/power management
Easy to install
7mm internal diameter
Aluminium end caps
Economical and vandal resistant

ALP0250-A
Surface Door Loop Armoured

ALP0250-S
Surface Door Loop Spring

Ordering Information

Description	Code
Surface Door Loop Armoured	**ALP0250-A**
Surface Door Loop Spring	**ALP0250-S**

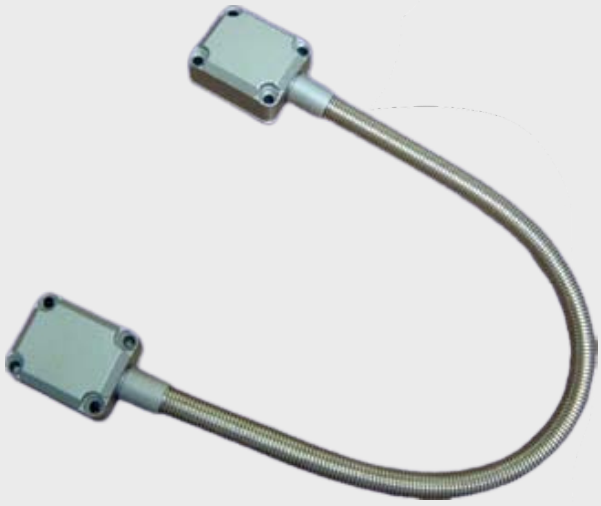
ALP0250-A Specification

Surface mounted
Steel finish
Aluminium end caps
7mm internal diameter
Armoured – protects cables
Overall length 50mm
Loop length 37mm

ALP0250-S Specification

Surface Mounted
Steel finish
Aluminium end caps
7mm internal diameter
Overall length 50mm
Loop length 37mm

ALP0250-A
Surface Door Loop Armoured



ALP0250-S
Surface Door Loop Spring
