Straight D Pull Handle Impressionist 01

The Impressionist range of door handles are bold and modern in appearance, as well as being practical in everyday use.

Manufactured in 32mm diameter, the look and feel is strong and robust, yet aesthetically pleasing to the eye and designed for aluminum, timber and glass door applications.

Available from stock in Satin Anodised Aluminum (SAA), Stainless Steel (SSS), and Polished Stainless Steel (PSS).

Handles are also available in coated finishes upon request. Additional lead times should be allowed for these items and may be subject to a surcharge.

- Back to back pair come complete with F19, F20 and F21 fixings.
- Bolt-thru single handles come complete with F26 and F34 fixings.
- Satin Stainless Steel and Polished Stainless Steel handles are manufactured from Grade 316 Stainless Steel.

Various handle fixings available to suit most door types. Link: [Pull handle fixing information](#)
