Round Mortice Cylinder Hooklock Deadlocks

52182

Deadlocks are available in both bar and hookbolt versions. The locks provide security deadlocking for a variety of aluminium doors including swinging and sliding applications.

The hookbolt is constructed from stainless steel and is a 5 ply laminated construction, with the centre core case hardened, complete with hardened roll pin to resist hacksaw attack. All locks are designed to accept standard round mortice cylinders or thumbturns.

Features

Range of back sets available

Locks accept standard 15/32" mortice key or thumbturn cylinder

Faceplate finish SAA

Stainless steel laminated lockbolts

Backset	Metric Equiv.	Dimension A
