Spigot Moured Circular Pull Handle

Impressionist 05

The Impressionist 05 series of door handles are bold and modern in appearance, as well as being practical in everyday use. Manufactured in 32mm diameter, the look and feel is strong and robust, yet aesthetically pleasing to the eye and designed for aluminium, timber and glass door applications.

Available from stock in Satin Anodised Aluminium (SAA), Stainless Steel (SSS), Polished Stainless Steel (PSS) and RAL 9005, 9010, 9006, 5002 and 7038.

The Impressionist handles are also available in bespoke coated finishes upon request. Additional lead times should be allowed for these items and may be subject to a surcharge.

- Back to back pairs come complete with F19, F20 and F21 fixings.
- Bolt-thru single handles come complete with F26 and F34 fixings.
- Satin Stainless Steel and Polished Stainless Steel handles are manufactured from Grade 316 Stainless Steel.

Various handle fixings available to suit most door types. Link: [**Pull handle fixing information**](#)
