Paddle Handle

Designed to enhance performance on light to medium weight doors, providing smooth operation in light to moderate foot traffic environments, while also being ergonomically friendly and practical. Supplied complete with a cam plug, enabling the handles to be used in conjunction with the 524510 deadlatch range of locks.

Features

- Paddle handle for use with deadlatches
- Standard spindle suits 44mm thick doors
- Extended spindle suits 67mm thick doors
- Cam plug non-handed. Reversible in the field

Designed to enhance performance on light to medium weight doors, providing smooth operation in light to moderate foot traffic environments.

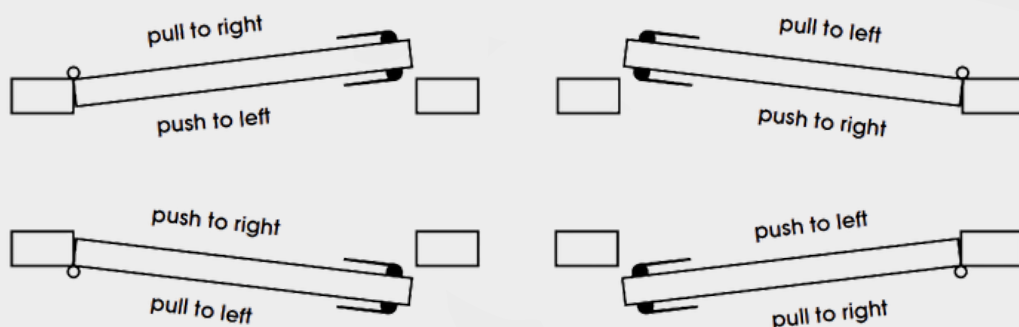

3 YEAR WARRANTY
