Europrofile Barbolt

52221 Deadlock

Deadlocks are available in both bar and hookbolt versions. The locks provide security deadlocking for a variety of aluminium doors including swinging and sliding applications.
The hookbolt is constructed from stainless steel and is a 5 ply laminated construction, with the centre core case hardened, complete with hardened roll pin to resist hacksaw attack.

All locks are designed to accept standard 17mm europrofile cylinders or thumbturns.
