Power Supplies In Housing

ALP12

Alpro switch mode power supplies provide a reliable and efficient means of converting 230V AC mains power to a regulated 12V DC output. Available in 1.5A, 3A, 5A and 10A models, they deliver a stable voltage supply for access control, CCTV, fire and security applications. Designed for long service life, these units incorporate high-quality components, low heat generation and battery backup capability, making them ideal for both new installations and system upgrades.

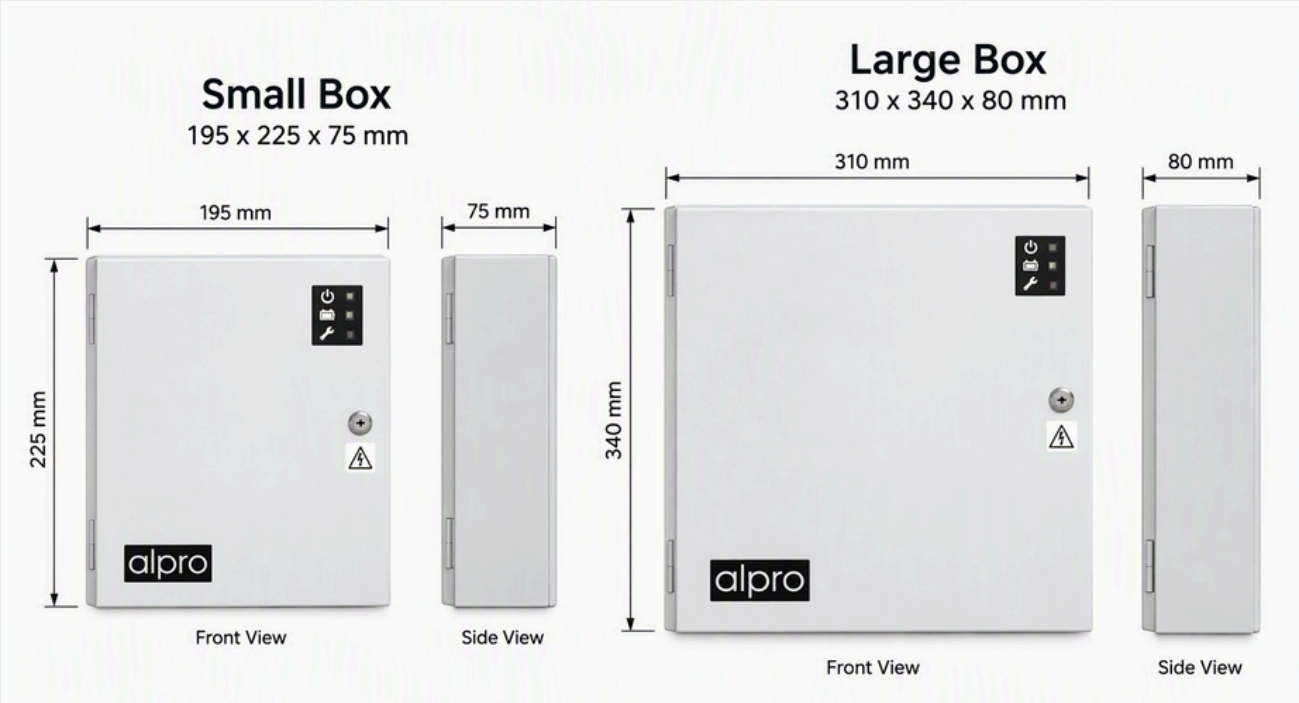

Small Box: 195 x 225 x 75mm size
Large Box: 310 x 340 x 80mm size
