Straight or Cranked Pull Handle

Functional 98

The Functional 98 series of pull handles are manufactured in 25, 32 and 38mm diameters. They are made in your requested length(up to 3000mm) and are designed for aluminum, timber and glass door applications.
All versions are suitable for bolt-thru (single side) or back to back (pair) fixing.
Available with straight or offset pillars.

Functional 98 series are available in the following finishes as standard: (coated options are available upon request)

Stainless and **Polished Stainless Steel** handles are manufactured from Grade 316 Stainless Steel.

Brass handles are manufactured in CZI08 H/H.

Handles are supplied with fixings as standard.

Please Note
A center bracket is recommended for handles 2000mm and over or heavier doors.
